Introduction

Murray Associates is an independent security consulting firm. We provide **eavesdropping detection** and **counterespionage services** to business, government and high-profile individuals.

We solve security problems like these:

- privacy invasion via illegal eavesdropping, voyeurism and tracking;
- business espionage;
- information security and intellectual property loss loopholes;
- spying at off-site meetings; compliance with privacy laws; and more.

From Boardrooms to bathrooms, our inspections reduce opportunities for competitive intelligence spying and help assure personal privacy.

Headquartered in the New York metropolitan area, a Murray Associates team can assist you quickly, anywhere in the United States, and internationally.

Thank you for considering our services. I look forward to solving your concerns.

Sincerely,

Kevin D. Murray - CPP, CISM, CFE, BCFE, MPSC

P.S. If you are already familiar with Murray Associates, feel free to skip ahead to Page 6: [“The Quick Guide to scheduling your eavesdropping detection sweep.”](#)

OPERATING POLICY

MURRAY ASSOCIATES is a security consulting firm which limits its services to the: prevention of unlawful electronic surveillance; the protection of privacy; and the prevention of information theft.

We will endeavor to:

- Assure absolute confidentiality.
- Provide the most knowledgeable and effective services at a fair cost.
- Remain unbiased in our efforts and recommendations.

We will not accept assignments:

- Without a clearly stated purpose.
- To obtain privileged information.
- Which are against the best interests of the U.S government or its citizens.

— Kevin D. Murray, 1978

References

Chances are very good we have already helped a security director, or investigator you know. Please check with them, or contact us for a reference in your area.

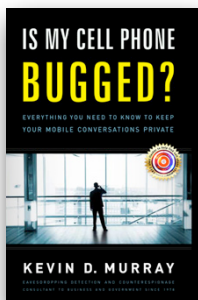

A few client compliments...

"I recently used Mr. Murray on a case in (deleted), and I must say it was one of the most professional, well documented eavesdropping and counter espionage reports I have ever had the opportunity to view. My client was extremely pleased with the results, as was I." Professional Investigator from California

"As usual, it was great working with Murray Associates. While always exceeding expectations, they went above and beyond this time helping us de-bug an AV problem. This team is second to none." Managing Director, US Financial Institution

"This is my 2nd experience using your services. I found your co. prompt and professional. I also appreciated the extra time spent explaining what was being done." V.P. - Communications, Financial Services Firm

"Loved the whole approach and low-key attitude conveyed during the evaluation. This went far with explaining things to 'the boss,' who was on-hand during the review. The quality of the report is excellent and I love all the references. Great job and keep up the good work." IT Mg., Communications Technology
[\(more\)](#)

"Kevin Murray's company has been the mainstay of our information security for the past 20 years. His professionalism & integrity is above reproach."

Still a regular client.)

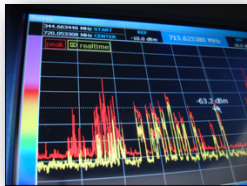

The Inspection

Advanced

TSCM Instrumentation & Techniques

Detection without Destruction SM

Just one version of our Radio-Reconnaissance Spectrum Analysis SM

Multi-spectral imaging reveals a spycam hidden in the front right corner of a working clock radio.

Inspecting the area above a suspended ceiling.

Government/military level instrumentation supports each of our teams on domestic assignments. Testing procedures include:

- Radio-Reconnaissance Spectrum Analysis SM
- Digital Surveillance Location Analysis SM
- Thermal Emissions Spectrum Analysis SM
(See <http://www.spybusters.com/infrared.html> for more photos and movies.)
- Wireless LAN Security Audits *with* Compliance Reporting SM
- Non-Linear Junction Detection
- Frequency Domain Reflectometry
- Communications Systems Analysis SM
- and additional proprietary techniques.

Proactive Protection

While on-site we also note other information loss vulnerabilities. Our written reports detail: locations inspected, findings, non-electronic information security observations, recommendations for remediation, and explanations of our inspection methodology and instrumentation. On most assignments, photographs and an annual inspection log are also included. Our report is proof of your due diligence.

You also receive private access to our 100+ page report supplement: ***Business Espionage Countermeasures & Checklists: Everything you need to know to counter the most common business espionage techniques.***

(We keep it on-line and continually updated — because it is good to know today what you might be up against tomorrow.)

For additional information on our instrumentation and techniques, visit:

<http://www.spybusters.com/instrumentation.html>

Compare

We have put years into earning your trust today.
Others may try to do the same with a few minutes of fast talk. Please compare.

Qualifications	MURRAY ASSOCIATES	Others
• Is electronic eavesdropping auditing the company's only business?	YES	
• How many years have they been in the TSCM field?	37+	
• How many years under their current company name?	34+	
• How many electronic eavesdropping audits have they handled?	3800+	
• Can you obtain copies of their Certificates of Insurance?	YES	
• Do they maintain a full-time staff?	YES	
• Are resumes available for every "expert" who will be on your premises?	YES	
• Does every tech have extensive security and investigatory experience?	YES	
• Is the principal professionally certified (CPP, CISM, CFE, BCFE...)?	YES	
• Have they taught Counterespionage on a university level?	YES	
• Can you obtain meaningful references – in your industry, in your area?	YES	
• Will they bring government/military instrumentation to your defense?	YES	
• Will they allow their findings to be verified via polygraph testing?	YES	
• Are they qualified to advise on other types of security matters?	YES	
• Are you sure their "expert" status won't crumble under courtroom scrutiny?	YES	
• Who is used by more professional security directors than any other?	✓	
• Which firm is used by more professional investigators than any other?	✓	
Instrumentation		
• Are their instruments the government/military versions whenever possible?	YES	
• Is wireless LAN inspection and certification included?	YES	
• Do they use Thermal Emissions Spectrum Analysis SM	YES	
• Do they use Radio-Reconnaissance Spectrum Analysis SM	YES	
• Do they use advanced high-frequency Non-Linear Junction Detectors?	YES	
• Do they use Frequency Domain Reflectometers?	YES	
• Do they inspect for infrared emissions, fiber optic devices, etc.?	YES	

Surveillance technology is a rapidly changing field. Conducting your own inspections, or employing a jack-of-all-trade investigator is ill-advised.

The Quick Guide

to scheduling a Murray Associates eavesdropping detection sweep

- 1 Call us from a “safe” phone.** Tell us about your concerns and security goals. We can help with suggestions and strategy guidance.
- 2 Complete our one-page Worksheet** ([on-line](#), or the next page). We will send you an accurate written estimate – expenses included.
- 3 Approve our estimate and schedule a convenient inspection date.**

Logistics

Murray Associates services are available any time, day or night, including weekends and most holidays at no extra charge.

Simply pick a mutually convenient date and time for your inspection.

We will be there.

We even handle all of the travel arrangements for you.

Questions

“Do you need to see our location first?”

It is rarely necessary to inconvenience you – or tip your hand – with a preliminary visit. The **Worksheet** is all we need. If your assignment is extensive a floor plan is helpful.

“Could you give me just a rough idea of the cost?”

Of course, [click here](#), or visit <http://tinyurl.com/SampleAssignments>. We will provide a detailed accurate estimate when you are ready.

“May I call you with additional questions?”

Please call us any time with your questions (+1-908-832-7900).

- Do not call from, or discuss your concerns within the suspected areas.
- Do not use an analog cordless telephone.

Until we arrive

- Do not discuss our services in, or call from suspected areas.
- Conduct your affairs normally.
- Do not reveal your suspicions to others.
- Limit confidential conversations.
- Keep detailed notes on anything you feel is suspicious.
- Plan a logical next step if an eavesdropping device is found.

Worksheet

Murray Associates - 2012

The e-mail version, and additional printable copies of this sheet, are available at... www.spybusters.com/worksheet.html

Let us know
your concerns
and goals.

Use this
[Worksheet](#) to
describe your
project.

We will suggest
a cost-effective
strategy for you.

Your custom
Estimate will
even include
travel expenses.

No obligation.
No surprises.
Easy.
